☆ Party / Birthday Party

Measures related to suspension of classes due to tropical cyclones and continuous heavy rain

- (1) When the weather is bad, such as continuous heavy rain or tropical cyclone affecting Hong Kong, the Education Bureau usually issues announcements to the full-day and morning classes through radio and television before 6:00a.m., to inform students whether they should return to school.
- (2) When the **Tropical Cyclone Warning Signal No. 3, the "Red" or "Black" Rainstorm Warning Signal** are hoisted by the **Observatory**, kindergarten students do not need to go back to school, but the school premises will remain open.
- (3) When the **Tropical Cyclone Warning Signal No. 8** is hoisted by the **Observatory**, kindergarten students do not need to return to school, and the school premises will not open.
- (4) If the Education Bureau announces the suspension of classes due to sudden deterioration of the weather, students who have not left home for school should stay at home; and students who have arrived school will be taken care of by teachers and can be sent home only when it is safe to do so .
